

Configure Custom Signatures

 For supported software information, click [here](#).

To configure custom signatures, you upload intrusion prevention system (IPS) signature files in .zip or .rules format, and then publish them to push the files to all SASE gateways on which the tenant is present. The Concerto node then automatically activates the custom signature files.

For information about creating IPS signature files, see [Configure Intrusion Detection and Prevention](#).

To configure custom signatures:

1. Go to Configure > Security Service Edge > Real-Time Protection > Profiles.

The following screen displays.

Configure > SASE > Real-Time Protection > Profiles > Custom Signatures

Real-Time Protection Profile List Publish (3)

Secure Web Gateway (SWG) | Data Loss Prevention (DLP) | Cloud Access Security Broker (CASB - Inline) | Remote Browser Isolation (RBI) | Advanced Threat Protection (ATP)

URL Filtering | DNS Filtering | IP Filtering | IPS | IPS Override | **Custom Signatures** | Malware Protection | File Filtering | SaaS Tenant Control

Search by keyword or name | Filter | Upload File | Delete | Refresh

File Name	Uploaded Time	Size (Bytes)	Modified By	Enabled
<input type="checkbox"/> test1.rules	1/23/2024, 2:15:06 AM	0 Bytes	Administrator	<input checked="" type="checkbox"/>
<input type="checkbox"/> testRu01.rules	3/22/2024, 3:26:22 AM	0 Bytes	Administrator	<input type="checkbox"/>
<input type="checkbox"/> testRu02.rules	3/22/2024, 3:26:09 AM	0 Bytes	Administrator	<input type="checkbox"/>
<input type="checkbox"/> test.rules	3/22/2024, 3:37:41 AM	0 Bytes	Administrator	<input checked="" type="checkbox"/>
<input type="checkbox"/> test.zip	12/4/2023, 3:29:12 AM	1.19 MB	Administrator	<input checked="" type="checkbox"/>

Showing 1-5 of 1 results | 10 Rows per Page | Go to page 1 | Previous 1 Next

- Select the Secure Web Gateway (SWG) > Custom Signatures tab, and then click  Upload File. The Upload File popup window displays.

Upload File

Choose a file to upload for your custom signatures.

File Name 

Browse

☐ Enable

Cancel

Upload

- Enter a filename in the File Name field, or click Browse to select a file to upload. The file must in .zip or .rules format.
- Click Upload to upload the file. You can upload multiple files.

5. In the main Custom Signatures screen, click Publish to push all the uploaded custom signature files to all the SASE gateways on which the tenant is present.

Supported Software Information

Releases 12.1.1 and later support all content described in this article
