

Upload PAC Files

For supported software information, click [here](#).

A proxy autoconfiguration (PAC) file defines how web browsers and other user agents can automatically choose the appropriate proxy server to fetch a given URL.

To upload a PAC file to a Director node or Versa Operating System™ (VOS™) device:

1. In Director view:
 - a. Select the Configuration tab in the top menu bar.
 - b. Select Devices > Devices in the horizontal menu bar.
 - c. Select an organization.
 - d. Select a branch or Controller node in the main pane. The view changes to Appliance view.
2. Select the Configuration tab in the top menu bar.
3. Select Objects & Connectors > Objects > Custom Objects > PAC Files in the left menu bar.
4. Select the Director tab.
