

## View the Branch Device Configuration

 For supported software information, click [here](#).

To view the devices configured for a branch or, for multitenancy, branches:

1. In the Director view, select the Administration tab in the top menu bar.
2. Select Appliances in the left menu bar.  
For Releases 22.1.1 and later, the following window displays.

The screenshot shows the Versa Networks Director View interface. The top navigation bar includes tabs for Director View, Appliance View, and Template View. The left sidebar shows the menu structure with 'Appliances' highlighted under the 'Administration' tab. The main content area displays a table of appliances.

	Name	Mgmt. Address	Tags	Type	Service Start Time	Software Version	Organizations
