

## Download the Global Publishing Status

 For supported software information, click [here](#).

You can download the global publishing status in CSV format for all sites and appliances. Each row in the CSV file contains the following information:

- Site—Name of the site
- Appliance—Name of the appliance
- Status—Current publishing status
- Master Profile—Name of the master profile assigned to the appliance

To download the global publishing status in CSV format:

1. For a tenant, select the Deploy lifecycle in the left navigation screen. The Deploy screen displays
2. Select the Sites tab in the horizontal menu bar. The screen then displays all the tenant's sites.

3. Click the Publish button. The global publish screen for all the tenant's sites and appliances displays.
